

Passive Video Balun with 9" BNC Lead

Model: VB100S

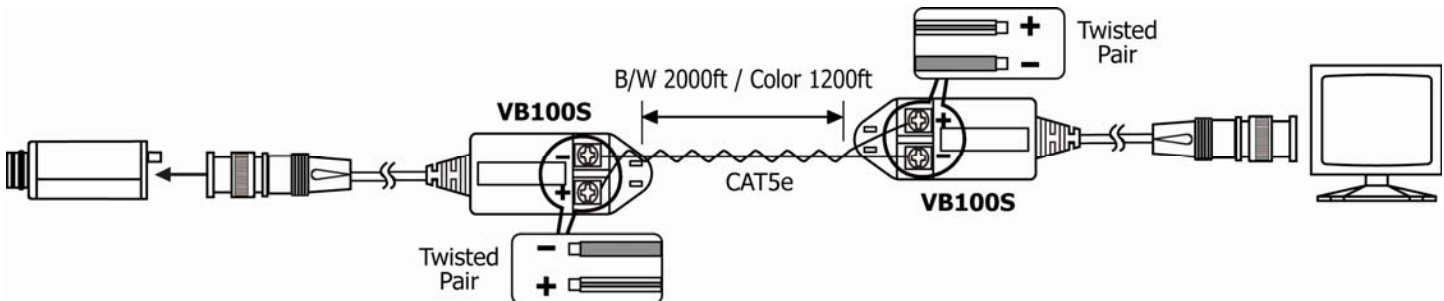

Features:

- Transmit a full motion monochrome video signal up to 2000ft / 600m, and color video signal up to 1200ft / 400m.
- Passive; No power required.
- Built-in impedance couple device and noise filter for interference immunity.
- BNC male with 9" pigtail to screw-type terminal.
- Used as a receiver, the VB100S compact size is perfect to connect with the image processors, which have multi BNC connections, like Multiplexer, Quad, DVR ...etc.

Wiring Diagram:

Specification:

Model Number	VB100S
Video Input / Output	Screw Type / BNC Male
Video Signal	1V p-p, 75 Ohms
Transmission Distance	2000ft / 600m (B/W), 1200ft / 400m (Color)
Cable	UTP / Twisted Pair CAT 5 (AWG24)
Power	No Power Required
Dimensions W x H x D mm	26 x 25.5 x 320mm with 9" mini coax cable
