

# 16-Channel Active Video Balun Receiver- 1U Rack Mountable

Model: VBA1600R-1U

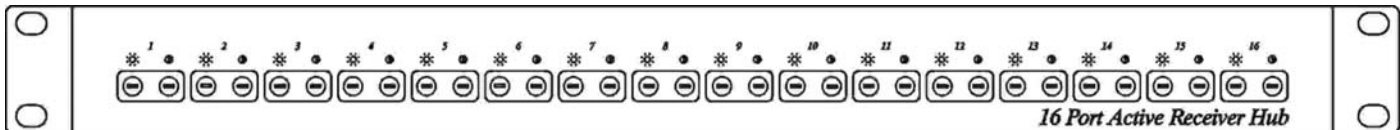

## Features:

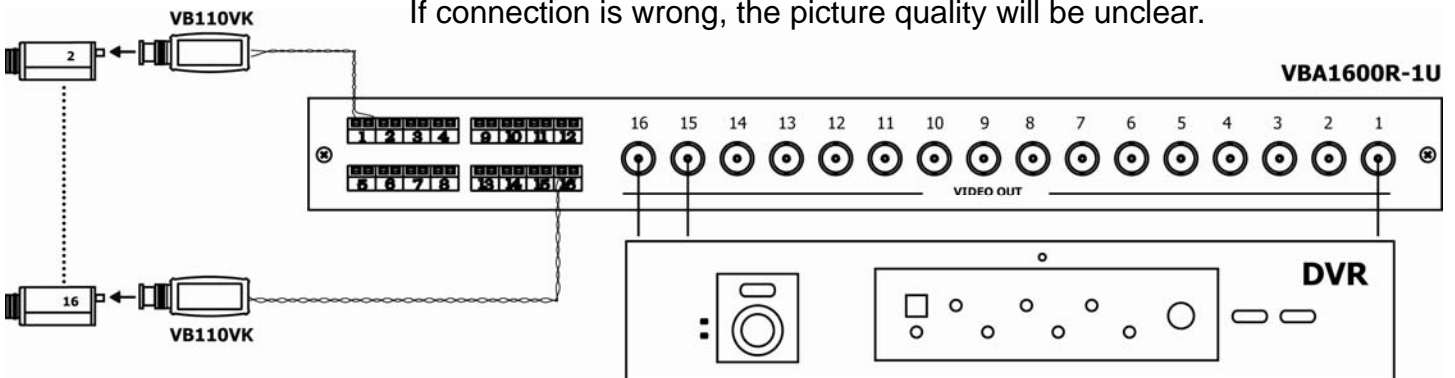

- 16 Port Active Receiver Hub in 1U Rack Mounting Panel.
- Multi video transceivers to be installed onto one compact 19" wide 1U panel.
- Panels can reside in the same rack as other equipment, such as switchers, multiplexers, DVR, video conferencing equipment, etc.
- Built-in 16 port VBA100R active receivers in 1U 19" rack mounting panel.
- Highly built-in balanced mode of video transmission for extra interference immunity.
- Built-in transient protection and ground lifting.
- They are perfect for larger CCTV installations and ideal for security monitoring stations.

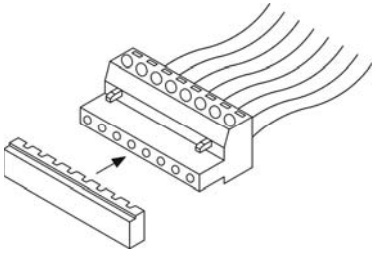

## Wiring Diagram:

\* Please note the “+” and “-” on the cable and device.  
If connection is wrong, the picture quality will be unclear.

\* Removable terminal block for easy Installation

### Specification:

<b>Model Number</b>	<b>VBA1600R-1U</b>
Video Input / Output	16 Port Terminal Block / 16 Port BNC Female Connector
Video Signal	1Vp-p, 75 ohms
Transmission Distance	With Passive VB100T = Up to 3000Ft / 900M With Active VBA100T = Up to 5000Ft / 1500M
Power	12V DC
Power Consumption	500mA
Cable	CAT 5 Cable 4 Pairs (AWG24)
Power Adapter	Included
Dimension W x H x D mm	482 x 170 x 44mm (1U)
Weight g	2720g
Material	Metal Black
