

8-Channel Active Video Balun Receiver - 1U Rack Mountable

Model: VBA800R-1U

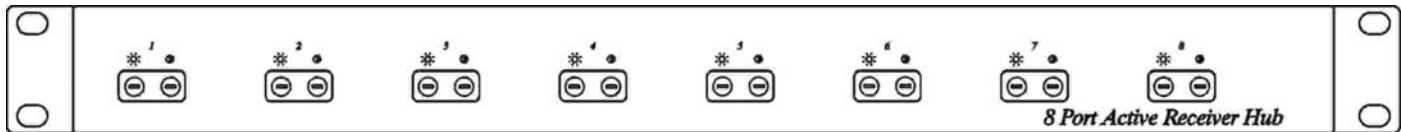

Features:

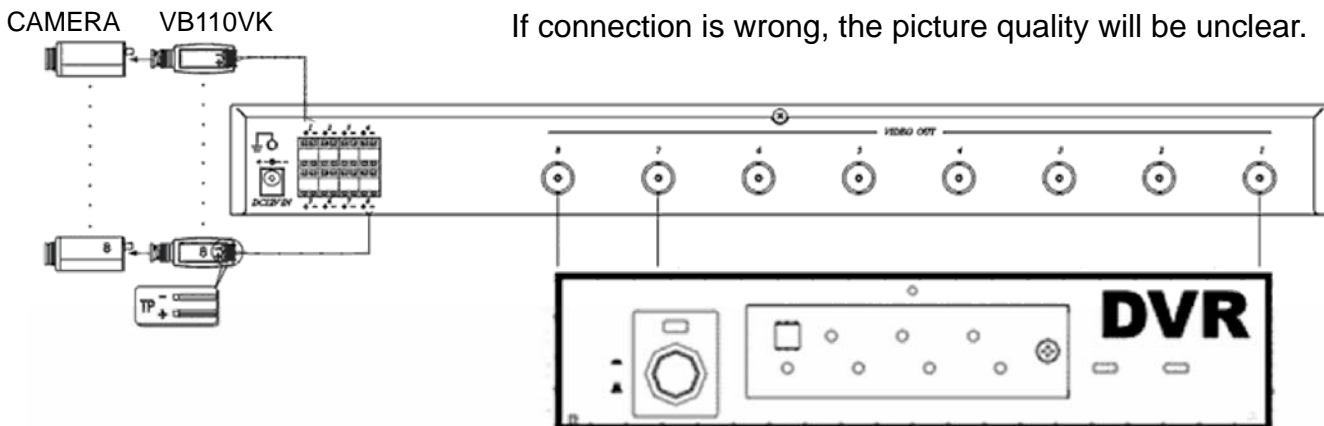

- 8 Port Active Receiver Hub in 1U Rack Mounting Panel.
- Multi video transceivers can be installed onto one compact 19" wide 1U panel.
- Panels can reside in the same rack as other equipment, such as switchers, multiplexers, DVR, video conferencing equipment, etc.
- Built-in 8 port VBA100R active receivers in 1U 19" rack mounting panel.
- Highly built-in balanced mode of video transmission for extra interference immunity.
- Built-in transient protection and ground lifting.
- They are perfect for larger CCTV installations and ideal for security monitoring stations.

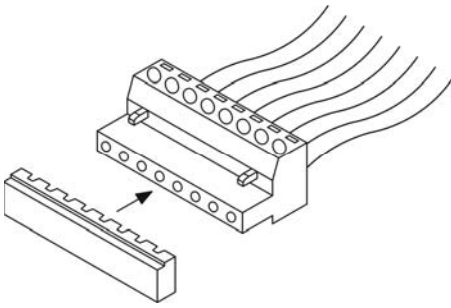

Wiring Diagram:

* Please note the “+” and “-” on the cable and device.
If connection is wrong, the picture quality will be unclear.

* Removable terminal block for easy Installation

Specification:

Model Number	VBA800R-1U
Video Input / Output	8 Port Terminal Block / 8 Port Female BNC Connector
Video Signal	1Vp-p, 75 ohms
Transmission Distance	With Passive VB100T = Up to 3000Ft / 900M With Active VBA100T = Up to 5000Ft / 1500M
Power	12V DC
Power Consumption	400mA
Cable	CAT 5 Cable 4 Pairs (AWG24)
Power Adapter	Included
Dimension W X H X D mm	482 x 170 x 44mm (1U)
Weight g	2200g
Material	Metal Black
