

Features:

- Video distributors with one or multi video input to multi output.
- They are suitable for long distances, even on different floor levels within a building.
- Red LED: power on/off.
- It can be connected to a video camera, multiplexer, VCR, DVR...etc.
- Power supply included.

Wiring Diagram:

Troubleshooting:

All transmission distances mentioned above are without connecting image processors (e.g. Quad, Multiplexer, or DVR). The transmission range would be reduced to 100-200M upon different camera, cable, DVR, etc.

1. When there's no video signal, please check the power LED and power source.
2. When the video signal is not normal, please check the “+” and “-” of the cable.

Specification:

Model Number	VD428BNC
Video Input / Output	4-Channel / 8-Channel BNC Female
Video Signal	0.8V ~ 1.2Vp-p, 75 Ohms
Video Bandwidth	10hz - 10MHz
Power	12V DC / 500mA
Power Consumption	150mA
Dimensions W X H X D mm	133 x 145 x 44mm
Weight g	680g
Material	Metal Black
